

Guido Perboli

Last update February 11, 2021

PERSONAL DATA

Family name Perboli
Name Guido
Email guido.perboli@polito.it

EDUCATION

2002 Ph.D. in Computer Engineering - Politecnico di Torino, Torino (Italy) -
 Cospervised by the CIRRELT (formerly CRT) Center, Montreal, Canada
1999 Master degree in Computer Engineering - Politecnico di Torino, Torino (Italy)

LANGUAGES

Italian Mother tongue

SHORT BIO

Guido Perboli is Associate Professor in the Department of Management and Production Engineering (DIGEP) of Politecnico di Torino and Associate Member of the CIRRELT - Centre Interuniversitaire de Recherche sur les Réseaux d'Entreprise, la Logistique et les Transport - Québec, Canada. He is presently in charge of the courses of Strategic Management and Operations Research in the Industrial Production and Innovation Management Master degree. He is presently in charge of different activities, including the student exchange program with UQAM, Montreal, and member of the Board of the Italian Amazon Innovation Award.

In 2016 he founded the ICT for City Logistics and Enterprises (ICELab@Polito) center of Politecnico di Torino, a research center focused on two of the main activities supporting the Urban growth: logistics and enterprises. He is presently director of the ICE center. He is author of more than 100 papers on peer reviews International journals and Conferences (see <http://staff.polito.it/guido.perboli/> for the detailed list). His main areas of expertise are Business development and Lean Business, City Logistics and Smart City, Green logistics and impact assessment of externalities reduction policies in Supply Chains, Urban Freight delivery, Container and Vehicle Packing, Fleet Routing and Management.

Mentor of Startups and with an experience of 15 years in Business Development and R&D, he is currently shareholder and R&D Director of Arisk (<https://www.arisk.it/>), Fintech Startup

operating in the Enterprise Crisis sector and Spinoff of Politecnico di Torino. With AI and Machine Learning, Arisk algorithms are able to predict with a precision of more than 85% a company crisis up to 60 months in advance. For its innovative methods, in 2019 Arisk was awarded by Credit Village as the best Startup in the Credit Industry and by the Italian Fintech and Insurtech Observatory one of the the best 10 Startups in the market.

He is also member of scientific boards and awards, including the Scientific Board of SOS Log (<http://www.sos-logistica.org/en>), the main Italian association of Sustainable Logistics, the Digital Hub of Compagnia delle Opere, an association of enterprises with more than 30000 companies, and the Amazon Innovation Award, the international award of Amazon on Service Innovation, Last Mile Delivery, and Warehouse Management. Since 2010 he has also been advisor of several Italian regions for innovation projects, advisor of the National Grants of the Government of Canada, as well as member of the Board for Logistics of the Regional Council of Piedmont, the bilateral policy table on Logistics and Supply Chain Politecnico di Torino-CONFINDUSTRIA and member of the think tank of EbiLog and Fright Leaders Council on Logistics.

Since 1998 he is consultant for National and International companies, including Accenture, DHL, Emerson Network Power, FCA, Iveco, Panalpina, Porche, Rhona, Telecom Italia, Tales Alenia Spazio, TNT and mentor in TIM Ventures and I3P of Startups.

MAIN RESEARCH TOPICS

Business models and Lean Business

The issue of controlling and evaluating the decision making processes in Multi-Actor complex Systems (MACSs) is a well known challenge in the literature. The issue becomes more and more interesting when the actors are characterized by different backgrounds, introducing behavioural aspects to the complexity due to the inter-correlation between the actors themselves. In order to cope this issue, my research goes toward the integration between the business processes and models with the operational ones by Lean startup tools. This led to the definition of GUEST, a Lean Business methodology able to cope from the early definition of the idea up to the factual implementation, while reducing the time-to-market and increasing the co-creation level of the people involved ion the innovation process. The methodology was used in different environments, including food and beverage (Lavazza), automotive (FCA, IVECO, Italdesign), public companies (CIDIU), energy (Emerson Power), Parcel delivery (TNT, DHL, PonyZero).

Smart and Sustainable Cities

The research focused on the integration of optimization procedures in the supply chain of freight transportation in urban areas, and ion Last Mile Logistics in particular. This is a major challenge, due to the peculiarities of the Last Mile Logistics and to the fact that different aspects (economical, environmental, social, behavioural) must be taken into account. Thanks to tte collaboration with large companies (DHL, TNT, Amazon), startups and public bodies, the research considered both operational issues, as well as the development of new business services and models and their integration withthe operational issues. Moreover, from an industrial point of view, prof. Perboli has been involved in the creation of the first certification program for sustainable logistics (in collaboration with Lloyd's register and SOSLog, the Italian Society for Sustainable Logistics)

Operations management and Combinatorial Optimization

In operations management, my research mainly focused on two specific aspects: packing, routing

and stochastic programming.

Packing and Loading. New, fast and accurate lower bounds have been introduced for the Bin Packing problem. New approaches for the accommodation of items in two and three dimensions have been studied. By means of these new approaches, heuristic algorithms for the bin packing and container packing problems have been developed and tested, obtaining better results than the state of the art methods.

Routing and fleet management. A new family of VRP problems, the Multi-Echelon VRP problems, has been introduced. For the 2-Echelon version of these problems, models, exact and heuristic methods have been developed, including math-heuristics, cluster-based heuristics, and several cut families.

Stochastic problems and management of uncertainty. New deterministic approximations of stochastic problems. Those approximations are able both to give an accurate bound of the stochastic objective function and to predict the optimal stochastic decisions. Definition of new stochastic problems for strategic and tactical decisions in supply chains and transportation systems.

INDIVIDUAL SCIENTIFIC ACTIVITIES

PUBLICATIONS

For brevity, the detailed list of Conference Proceedings is not reported

Index	Value

AWARDS AND RECOGNITIONS

Academic Award	Winner of the Prize "Support for Young Researchers" given by Politecnico di Torino to the young researchers with an outstanding publication record (2011).
Best paper award	Finalist at the best paper award of the seventh annual IEEE Conference on Automation Science and Engineering (IEEE CASE 2011, Trieste, Italy, August 24-27, 2011).
Foreign academic qualification	France, 2006: qualification as "maître de conférence" for the sections "Mathématiques appliquées et applications des mathématiques" (26), "Informatique" (27) et "Génie informatique, automatique et traitement du signal" (61) of Conseil National des Universités.

RESEARCH PERIODS ABROAD

From (mm/yyyy)	To (mm/yyyy)	Institution/University	Role

COMMON INTEREST SCIENTIFIC ACTIVITIES

C.1. RESEARCH PROJECTS IN CHARGE

No industrial contracts (see C.5.).

Period	Project name	Project type
	N: National - E: European - O: Other	
2020-2024	5G-LOGINOV - 8M Euro. The project brings together 15 partners to evaluate and showcase the added value of 5G technology in logistics and port operations in three Living Labs (Athens (GR), Hamburg (GE) and Luka Koper (SV)), and will support the adoption and take-up of 5G enabled next generation operation systems of ports and logistics hubs in Europe and beyond. The group of prof. Perboli is responsible of the development of the new products and services, as well as helping SMEs and startups in their business development.	E
2020-2024	IncitEV - 12M Euro. INCIT-EV project aims to demonstrate an innovative set of charging infrastructures, technologies and its associated business models, ready to improve the EV users experience. The project will last 4 years with the evolution of differentiated phases. 5 demo environments at urban, peri-urban and extra-urban conditions will be ready for the deployment of 7 use cases.	E
2020-2024	M1M - Collaborative Research and Development Grants - 1.8M Cad\$ (NSERC - Canada). The project focuses on the design, planning and management of M1M systems for the development of new services for the consolidation of the freight demand.	O
2020-2022	City Freight Logistics (Norway). The primary objective of the research project Freight Logistics in Sustainable Cities (CityFreight) is to provide public authorities, particularly in smaller, topologically complicated, cities with a toolbox for realistically evaluating major decisions that would make a city more energy efficient and sustainable in terms of freight transportation.	O
2017-2019	Urban Mobility and Logistics Systems Multi-departmental Lab of Politecnico di Torino - 500K euro. The Lab, part of the CARS@Polito Interdepartmental Center, focuses on the multi-faceted issues of designing, planning, and managing economically-efficient & environmentally-conscious smart integrated urban transport systems, providing high-quality mobility for people and goods, and contributing to the sustainable development of the city.	N

2016-2019	SynchroNET - 7M euro. The SYNCHRO-NET project will show how a powerful and innovative SYNCHRO-modal supply chain eco-NET can catalyse the uptake of the slow steaming concept and synchro-modality, guaranteeing cost-effective robust transport solutions that slow down and better organise the supply chain to reduce emissions and costs for logistics operations.	E
2013-2015	UrbeLog (Smart City) - 7M euro. The URBeLOG project aims to develop and test an innovative open, dynamic and cooperative telematics platform providing services and applications for the last mile logistics in urban areas, It enables to aggregate the stakeholders transport ecosystem and to manage the distribution processes ? from production to delivery ? in real-time.	N
2007-2009	ORNet 50K euro (Politecnico di Torino)	N

MEMBERSHIP IN BOARDS/COMMITTEES/RESEARCH CENTERS ETC.

Period	Role
2020-Today	Editorial Board of the Journal of Applied Research and Technology - JART – Associate Editor
2019-Today	MOBI Alliance. MOBI is a member-led consortium working to make transportation greener, more efficient, and more affordable, using blockchain and related technologies – Delegate of Politecnico di Torino in the Logistics Chapter
2019-Today	Policy Table for Infrastructures, Logistics and Supply Chain - CONFINDUSTRIA PIEMONTE – Technical expert representative for the Politecnico di Torino
2018-Today	MOTUS-E, the first Italian association of automotive and industrial companies, Universities and Stakeholders for the electric mobility – Delegate of Politecnico di Torino
2018-Today	Urban Mobility and Logistics Systems (UMLS) Lab, the Mobility and Logistics branch of CARS@Polito, the Interdepartmental Lab on Automotive and Mobility Center of Politecnico di Torino – Head of UMLS
2016-Today	ICT for City Logistics and Enterprises Lab - ICELAB@Polito – Director
2017-Today	Digital Hub of Compagnia delle Opere (more than 30000 companies) – Scientific and Steering Committee
2018-Today	Editorial Board of the Sustainability journal (Impact Factor 2017: 2.075) – Associate Editor of the Sustainable Transportation section
2017-Today	Amazon Innovation Award – Member of the Board

2021	TEMSCON 2021 - 2021 IEEE Technology & Engineering Management Conference - Europe, Dubrovnik, Croatia – Technical Program Committee member
2021	SSMLS 2021 - 3rd IEEE International Workshop on Smart, Sustainable Mobility & Logistics in Smart Cities (at COMPSAC 2021) – Workshop Chair
2020	SSMLS 2020 - 2nd IEEE International Workshop on Smart, Sustainable Mobility & Logistics in Smart Cities (at COMPSAC 2020, Madrid, Spain) – Workshop Chair
2019	Digital Agenda for the Regional Council of Piedmont 2019-2029 – Head of the Pillar Mobility
2019	Policy Table for Logistics and Mobility - Regional Council of Piedmont 2019-2021 – Head of the Table
2019-Today	Italian National Agency for the Evaluation Of Universities And Research Institutes – Area Expert
2018-2019	AROSA 2019-Conference Track @ the 29th WETICE Conference, Capri, Italy – Program Committee
2018-2019	International Conference on Optimization and Decision Sciences, Genoa, Italy – Scientific Committee
2018-2019	International Conference on Stochastic Programming 2019, Trondheim, Norway – Scientific Committee
2017-2018	Odysseus 2018 – Scientific Committee
2017	SSMLS 2017 - 1st IEEE International Workshop on Smart, Sustainable Mobility & Logistics in Smart Cities (at COMPSAC 2017, Turin, Italy) – Workshop Chair
2017-Today	Member of SOSLOG - Association of Sustainable logistics – Scientific Board
2017-Today	Member of the PhD in Management, University of Turin – PhD Board
2016-2018	INFORMS Transportation Science and Logistics Workshop 2018 – Scientific and Steering Committee
2016-2017	Network Optimization Workshop 2017 – Scientific Committee
2014-2015	Odysseus 2015 – Scientific Committee
2012-2013	Network Optimization Workshop - NOW 2013 – Scientific Committee
2012-2013	13th International Conference on Stochastic Programming – Scientific Committee
2011-2012	Odysseus 2012 – Scientific Committee

2008-Today	CIRRELT – Associate Member
2008-2010	UQAM – Université du Québec a Montréal – Member of the "Chaire de recherche industrielle du CRSNG en management logistique"
2004-2007	AIRO – AIRO Steering Committee member
1999-2005	AIRONews – Editorial Board member

INVITED LECTURES AND SEMINARS

Date (mm/yyyy)	Type	Institution/University/Conference
05/2020	Invited Speaker	EFMA - European Association of Banks and Insurances, Virtual Seminar. Title: Risk Management - SME current scenario (Italy case)
03/2018	Invited Speaker	2018 9th IFIP International Conference on New Technologies, Mobility & Security, Paris, France. Title: Applications of Blockchain to Supply Chain and Logistics: emerging trends and new challenges
09/2017	Keynote speaker	Workshop Optimization of Intermodal Freight Transportation, Valenciennes, France. Title: Parcel delivery in urban areas: opportunities and threats for the mix of new business models and technologies
05/2016	Keynote speaker	International Conference on Big Data-Based Healthcare Operations and Logistics Management, Chengdu, Sichuan, China. Title: Vehicle routing: recent trends and new challenges
05/2016	Keynote speaker	Summit on Constructing the Shipping and Logistics Center at the Combined Port of Sichuan, Yunnan, Guizhou Provinces in Luzhou, Sichuan, China. Title: Smart Cities in a Smart World.
2004-2016	Seminar	Seminars in several Institutions, including CIRRELT, Montréal, University of Bergamo, Politecnica delle Marche, Serbian Academy of Sciences and Arts, Belgrade, Univ. Wien.
11/2020	Seminar	CIRRELT, Montréal.
10/2018	Seminar	CIRRELT, Montréal.
10/2018	Seminar	CIRRELT, Montréal.
10/2017	Seminar	CIRRELT, Montréal.
10/2016	Seminar	CIRRELT, Montréal.
10/2015	Seminar	CIRRELT, Montréal.
10/2014	Seminar	CIRRELT, Montréal.

10/2013	Seminar	CIRRELT, Montréal
03/2013	Seminar	University of Bergamo
09/2012	Seminar	CIRRELT, Montréal
04/2009	Seminar	CIRRELT, Montréal
02/2008	Seminar	Univ. Politecnica delle Marche
10/2007	Seminar	Univ. Wien
08/2007	Seminar	CIRRELT, Montréal
02/2007	Seminar	Univ. Politecnica delle Marche
12/2006	Seminar	Univ. Cesena
06/2006	Seminar	Serbian Academy of Sciences and Arts, Belgrade
05/2006	Seminar	CRT, Montréal

COMMUNITY ACTIVITIES

Type	Period (yyyy/yyyy)
Coordinator of the pillars "University, Research and Innovation" and "Transportation, Infrastructure and Smart Cities" of the "Democrazia Cristiana" Foundation	2020-Today
Member of the Think Tank of the Freight Leaders Council and Ebilog on the future of logistics in Italy	2020-Today
Member of the Board for Logistics Plan of the Regional Council of Piedmont, Italy	2019-Today
Technical expert and representative for the Politecnico di Torino in the policy table for Infrastructures, Logistics and Supply Chain - CONFINDUSTRIA PIEMONTE	2019-Today
Director of the ICT for City Logistics and Enterprises Center of Politecnico di Torino	2016-Today
Co-founder and member of the EURO Working Group on Practitioners	2018-2020
Chair of TOP Experiences, meetings at Politecnico di Torino with International top managers	2014-2020
Chair of the Young Thematic Branch of AIRO	2006-2008
Chair of the Organizing Committee of the I FIMA International Conference - Models and Methods for Human Genomics	2005-2006

INDUSTRIAL TRAINING

Type	Period (yyyy/yyyy)
Course in Innovation Management and Lean Business in Italdesign	2019

Scientific Direction of the TANGRAM Project - Project for the training in Industry funded by Fondimpresa	2018-2019
Course in Mobility for the Regional Council of Alto Adige - Module: Urban planning and strategies for sustainable mobility	2018
Course for Executive in Digital Transformation by Skillab/Fondirigenti - Module Digital business models	2018
Course in Lean in TIM JoL	2017
Course for Executive in Digital Transformation by Skillab - Module Business model and digital transformation	2015
Scientific Direction for the Master ANCI Smart and Sustainable Mobility in Urban Areas	2015
Master Management of Smart Cities - Module: City Logistics: Models methods and case studies	2014

EVALUATION OF INDUSTRIAL AND INNOVATION MANAGEMENT PROJECTS

Type	Period (yyyy/yyyy)
Scientific Expert of the Digital Hub of Compagnia delle Opere (Hub in the EU list of Digital and Innovation Hub)	2018-Today
Mentor of startups in I3P, the Incubator of the Politecnico di Torino	2015-Today
Evaluation of Projects in the NSERC Discovery Grant Program of the Government of Canada	2018-Today
Evaluation of Startup and Innovation Projects for the Council of the Province of Trento	2018-Today
Evaluation of Startup and Innovation Projects for the Regional Council of Campania	2017-Today
Mentor in TIM Join Open Labs and TIM Working Capital of startups (mainly ICT and robotics markets)	2015-2017
Member of the committee of the MoU between Poste Italiane s.p.a. and Politecnico di Torino	2015-2018

TECHNOLOGY TRANSFER

Industrial contracts (only if Project Leader), consultancy services, workshop/seminar for companies, etc.

Type	Period (yyyy/yyyy)
------	-----------------------

PI in the industrial contract with TIM for a field trial on Narrow-band technologies in 5G networks and their integration with Blockchain and IoT in Supply Chains	2020
EFMA - no-profit organization created in 1971 by leading European banks, with a network of over 3,300 bank and insurance brands in 130 countries all around the world. Lead of the co-creation table on the prevention of SMEs crisis. (http://www.efma.com/)	2020
R&D Director and Shareholder of Arisk s.r.l. - the leading Italian Startup in the automatic evaluation of risk and corporate crisis (http://www.arisk.it/)	2018-Today
Local Unit coordinator of a Collaborative Research and Development Grant by NSERC, Canada, in collaboration with Clear Destinations inc. - 1.8MCad	2020-2024
PI in the industrial contract with CRF/FCA for the development Blockchain and IoT solutions for the Electric Batteries Supply Chain	2020
PI in the industrial contract with TIM for the development of the integration of Blockchain and IoT in Supply Chains	2019
PI in the industrial contract with Italdesign for the development of Innovation Strategies for Smart Cities services	2019
PI in the industrial contract with FCA for the development of a DSS for the strategic process of the procurement of the spare parts	2017-2018
PI in the industrial contract with TIM for the integration of business discovery processes and innovation management in the Innovation branch of the company	2016-2017
PI in the industrial contract with PonyZero srl, a startup of Politecnico di Torino for a fleet routing and management tool	2015-2016
Academic supervisor of 5 industrial Lagrange grants funded by the CRT Foundation	2008-2017
R&D Director in BDS srl, Turin	2007-2017
PI in the industrial contract with BDS srl, Turin, for the development and the analysis of Customer Satisfaction and Profiling questionnaires	2008-2013
Coordinator of ICARO2 Project, funded by HP Philanthropic Grants	2002-2003
Coordinator of ICARO Project, funded by HP Philanthropic Grants	2000-2001

TEACHING ACTIVITIES

TEACHING IN CHARGE

He is presently Professor of the courses of Operations Research in the Bachelor of Industrial Production of Politecnico di Torino, Industrial strategies and Professional Ethics in the Master of Industrial Production and Innovation Management of Politecnico di Torino, and Lean Business and Innovation Management at the Ph.D. School of Politecnico di Torino (soft skill course).

Number of credits (CFU) per academic year, level, scientific sector (S.S.D.), and language

Academic Year (yyyy/yyyy)	Bachelor		Master		Ph.D.		Specializing Master		S.S.D.	Total
	Italian	English	Italian	English	Italian	English	Italian	English
